

RQ1. Where did WSU students learn about the events posted by the international center?

Mostly by WSU e-mail.

RQ2. Are WSU students allowed to organize festival events by themselves?

Sure. There are many events held by students.

RQ3. Have you participated in any activities in IP-international Center at WSU?

If yes, please briefly describe your experience.

No, I haven't.

RQ4. Based on all existing IP-international Center activities, do you think they meet the need of all WSU students who are interested in culture exchange? Why? What kind of events do you expect to happen in IP-international Center?

No clue for this question.

RQ5. When there is an event in WSU, can the students know how popular it is, and how many people want to join it?

I don't think so. Before someone joins the event, he or she may not have a convenient way to know about this.

RQ6. Can the students communicate with others who are interested in a same event?

Maybe yes, like on facebook, but there is no official platform to put them together.

RQ7. Have you ever wanted to learn about the culture of other countries? If you have, how do you currently understand the culture of other countries?

Yeah, for sure. As for me, the culture of other countries is more like how their people like to do in the leisure time sort of things.

RQ8. How do you make foreign friends now? Do you want a platform that can help you meet foreign friends in the school?

By taking class together with them. Sometime I do like such a platform, it's easier to find a guy who has same interests as me.
